

field	Law and political science
branch	Law
Specialization	Family law
Certificate	Academic Master

Configuration goals:

The specialty of family affairs law includes many elements related to society and affects public life in its various aspects, both political and economic... Deepening the study of this specialization enables the student to identify the nature of family relations through a huge amount of information and knowledge that precedes the establishment of the relationship. marriage until its termination.

Then he can describe the solutions that he draws from the Algerian Family Law and the provisions of Islamic jurisprudence, pursuant to Article 222 of the Algerian Family Law, by virtue of the fact that the stability and progress of society is governed by the extent of the integrity of the family, which the legislator considered the basic cell in building society, which makes us think about the frameworks the appropriate legal and legislative, by examining its support, change or enrichment; In a way that serves the interests of individuals, guarantees their rights, and supports their freedoms, whether it is related to the husband, wife, or children, and all of this depends on training specialized researchers with a broad culture and specialized in family legislation.

This training enables the student to obtain theoretical and applied knowledge in family law, through two aspects:

Theoretical aspect: It aims to obtain scientific competencies and psychological preparations that enable him to:

Gaining the necessary expertise that enables him to understand the nature of conflicts that arise within the family.

- Possess the ability to interpret texts and be able to employ them properly in a way that achieves the benefit and interest within the family.

- Estimate the real dangers that threaten the family and society in general.

Practical side: It aims to develop the individual capabilities of the student in terms of:

- Being able to understand the mechanisms and controls on which family legislation is based in law and Sharia.

- The ability to face the problems of the Algerian family and search for appropriate solutions.

The ability to supervise and supervise specialists in family affairs issues in the future.

Entry conditions:

Graduated students under the new system (L.M.D.):

Candidates are accepted, within the limits of open positions, according to the order of the general average for the six semesters.

- The student should have a bachelor's degree in private law or a specialization in sharia and law.

- The student should not have repeated the year during the bachelor's degree.

The student should be of good conduct and behaviour.

Graduated students under the old system (classic):

Candidate students are accepted, at a rate of 20% of the allocated seats, according to the order of the general average for the eight semesters.

- The student should not have repeated the year during the bachelor's degree.

The student has not entered the remedial course.

The student must have obtained a grade of at least 12/20 in the eight semesters.

The student should be of good conduct and behaviour.

Employability potential

Upon obtaining this certificate, the student can be employed at the level of the courts by joining the Higher School of the Judiciary, and he has obtained an excellent training that enables him to assume responsibility for issuing judicial rulings in family affairs cases.

He can also be a skilled lawyer in defending the right and the truth, in cases where divorce becomes the solution. He possesses the queen that qualifies him to search for causes and causes in search of a way out and a solution to all family problems before the judiciary.

And whether he is a judge, a lawyer, or a professor and an able researcher, through this specialization, he will inevitably provide a great service to society in a way that contributes to creating stability.

He can also be an employee in public administrations that have a close relationship with his formation, such as the municipality... and others.
